Github: https://github.com/sirhunty | Portfolio: https://christopher-matthews.herokuapp.com

## SUMMARY

Full Stack Web Developer with a background in Graphic Design. Recognized as creative, persistent and reliable. Great with attention to details and communication skills. Graduate of Full Stack Web Development through the University of Arizona.

## TECHNICAL SKILLS

**Languages:** JavaScript, HTML5, JQuery, CSS, Bootstrap, React.js, Node.js, Express.js, Sequelize
**Applications:** MySQL, MongoDB, Postman, Visual Studio Code, Git Bash, Adobe Creative Suite, Microsoft Office

## PROJECTS

**Our Circle**
https://github.com/zidandesirae/Project3 | https://our-circle.herokuapp.com
- Our Circle is an app designed for families, friends, and even colleagues to create groups or "Circles" that help keep track of events, notes, photos and calendars that pertain to the individuals assigned to that specific Circle.
- Primary focus during build was database work with MySQL, Sequelize, Models, and Controllers.
- React, MySQL, Sequelize, JavaScript, Sass, HTML, and CSS.

**Portfolio**
https://github.com/sirhunty/sirhunty.github.io | https://christopher-matthews.herokuapp.com
- This is my personal web development portfolio.
- I completed all aspects of this application.
- HTML, CSS, JavaScript, SASS and Bootstrap.

**Astro Project**
https://github.com/HOWBZR/Astro-Project | https://howbzr.github.io/Astro-Project
- Once a Cosmic Event Finder; now... A Hiking Trail Finder. Due to time constraints and available APIs, we made the decision to develop a trail finder application over a cosmic event finder.
- Primary focus was API call work and helping front-end utilize the data from those calls.
- HTML, CSS, JavaScript, JQuery and Bootstrap

**PokeMood**
https://github.com/MelanieRogoff/PokeMood | https://murmuring-mountain-45065.herokuapp.com

- PokéMood is an app created as part of a group project. The app enables users to see Pokémon based on their mood, as well as discover more information about particular Pokémon.
- Primary focus was front-end and back-end as the group consisted of two members.
- PokéAPI in addition to JavaScript, MySQL, Sequelize, Node, SaaS, Express, and Heroku.

## EXPERIENCE

**Activations Specialist**                                           **2017 – 2020**
**Digital Air Strike**                     **Scottsdale, AZ**
- Successfully onboarded and maintained many client products and supported any issues going forward which allowed for an increase in our sales.
- Formally recognized for completing a full audit process of all accounts within a particular program. Was awarded for the responsiveness and efficiency of the report.

**Service Desk Representative**       **2016 – 2017**
**Logicalis**       **Tempe, AZ**
- Created support tickets for customer issues by logging detailed information and researching solutions.
- These communications were done primarily over the phone, remotely, or even chat/email.
- Patience and attention to detail were great skills I was able to develop during my time in this position.

**Assistant Manager**       **2014 – 2016**
**Dutch Bros. Coffee**       **Mesa, AZ**
- Formally recognized for my drive and dedication to the team and was promoted to an assistant manager.
- Customer service and product management were the primary focuses during my time as an assistant manager. Completed two full product deliveries each week.
- I had opportunities to learn how to communicate with people and have genuine moments, while understanding how to manage people and product.

**Quality Engineer Intern**       **2012 – 2013**
**SAP Retail Labs**       **Scottsdale, AZ**
- First experience with AGILE Development and daily SCRUM team meeting.
- I am able to bring real development team experience with me during my time as a Quality Engineer. I understand the lifecycle of development from both the testing side and now the development side.
- Recognized for completing many audits for different development teams.

## EDUCATION

**Full Stack Certificate:** University of Arizona, Gilbert, AZ
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handelbars.js & React.js.

**Bachelor's degree in Digital Culture and Graphic Design:** Arizona State University, Tempe, AZ
Focus in Digital Design and Graphics with emphasis on Adobe Suite Products and other 3D programs such as Cinema 4D and Rhino. Also touched on basics of web development with HTML, CSS, JavaScript, and Processing.
